Grand Total	**153**	

Performance of the Medical College Hospitals for the period 2025-2026

Bed Strength	68,122
Out Patients (per day)	1,23,581
In Patients (per day)	41,801
Cath Lab	43,317
Major Surgeries	6,05,441
Dialysis cycles	5,55,675
CT Scan	18,49,671
MRI Scan	2,43,924

2. Selection Committee

Every year, Selection and admission to the MBBS / MD /Super Speciality / Post Graduate Degree Courses in Medicine / Para Medical courses / Nursing courses / Certificate courses to the Government Medical Colleges and Self Financing Medical Colleges are being dealt with by a separate body constituted in the form of Selection Committee.

The intake capacity of the Government Medical Institutions for Under Graduate and Diploma courses are furnished here under

Sl. No.	Name of the Course	No. of Colleges	No. of Seats
1.	M.B.B.S	36	5,200
2.	B.D.S	3	250
3.	B.Pharm	2	120
4.	B.Pharm (Lateral Entry)	2	12
5.	B.Sc., Nursing	6	400
6.	Post Basic (B.Sc., Nursing)	2	100
7.	Post Basic Diploma Critical Care Nursing	5	100
8.	Post Basic Diploma Nenonatal Nursing	3	60
9.	Post Basic Diploma in Psychiatric Nursing	1	10
10.	Post Basic Diploma in Gerontology Nursing (PBDGN)	2	40
11.	Post Basic Diploma in Hematology Speciality Nursing (PBDHN)	1	10
12.	Post Basic Diploma in Oncology Nursing (PBDON)	2	40
13.	Post Basic Diploma in Palliative Care Speciality Nursing (PBDPCSN)	2	40
14.	Post Basic Diploma in Cardiothoracic Speciality Nursing (PBDCSN)	1	20
15.	Post Basic Diploma in Burns and Reconstructive Surgery Speciality Nursing (PBDBSN)	1	20
16.	Post Basic Diploma in Orthopaedic and Rehabilitation Speciality Nursing (PBDO&RSN)	1	20
17.	Post Basic Diploma in Paediatric Specility Nursing (PBDPSN)	2	40
18.	Post Basic Diploma in Emergency and Disaster Specility Nursing (PBDE&DSN)	2	40

Sl. No.	Name of the Course	No. of Colleges	No. of Seats
19.	Post Basic Diploma in Operation Room Nursing (PBDORN)	1	20
20.	Post Basic Diploma in Neurology Nursing (PBDNN)	1	20
21.	Bachelor of Audio & Speech Language Pathology	1	25
22.	B.Sc., Clinical Nutrition	1	20
23.	Bachelor of Physiotherapy (B.P.T)	3	80
24.	B.Sc., Radiology and Imaging Technology	23	350
25.	B.Sc., Radio Therapy Technology	5	55
26.	Bachelor of Cardiopulmonary Perfusion Technology	4	35
27.	Bachelor of Optometry	9	145
28.	B.Sc., Cardiac Technology	13	182
29.	B.Sc., Critical Care Technology	8	135
30.	B.Sc., Dialysis Technology	15	240
31.	B.Sc., Operation Theatre and Anaesthesia Technology	18	340
32.	B.Sc., Physician Assistant	14	261
33.	B.Sc., Respiratory Therapy	11	168
34.	B.Sc., Accident and Emergency Care Technology	13	250
35.	B.Sc., Medical Laboratory Technology	18	330
36.	Bachelor of Occupational Therapy	3	40
37.	B.Sc., Neuro Electro Physiology	4	40
38.	Diploma in Pharmacy	3	240
39.	Diploma in Nursing	25	2,080
40.	Allied Healthcare Diploma Courses	36	2967
41.	Allied Healthcare Certificate Courses	37	5970
Total		**340**	**20,515**

Besides the Government Institutions, the Private Medical / Paramedical self–financing institutions affiliated to Tamil Nadu Dr.M.G.R Medical University are providing Medical and Para Medical Education. The details of the total Number of seats surrendered by the private self-financing Medical / paramedical colleges for allotment by the Government.

Sl. No.	College	Number of Colleges	Number of Seats
1.	Self-Financing Private (UG)	22	3,900
2.	Self-Financing Private (PG)	23	1,225
3.	ESIC, K.K.Nagar (UG)	1	150
4.	ESIC, K.K.Nagar (PG)	1	92
5.	ESIC, K.K.Nagar (AHS)	1	90
6.	State Private Universities(UG)	5	850
7.	State Private Universities(PG)	3	186
8.	Deemed to be University(UG)	13	3,050
9.	Private Dental College(UG)	20	1,950
10.	Private Dental College (PG)	17	356
11.	B.Sc., Nursing	275	11,807
12.	M.Sc., Nursing	74	952
13.	Post Basic B.Sc., Nursing	49	1,003
14.	B.Pharm	110	7,234
15.	B.Pharm. (Lateral Entry)	101	1,399
16.	M.Pharm	60	1,503
17.	B.P.T	54	2,061
18.	M.P.T	19	224
19.	B.O.T	9	404
20.	Pharm D (3 Years)	11	72
21.	Pharm D (6 Years)	51	1011
Total		**919**	**39,519**

The details of Post Graduates and Speciality courses available in the Government Medical Institutions in Tamil Nadu are as follows:

Sl. No.	Courses	Number of Specialities	Total intake
1.	P.G. (Super Specialities)	DM:15, MCH: 10	422
2.	P.G. Diploma (Medical)	8	21
3.	M.D.S. (Dental)	9	79
4.	P.G Broad Specialities (MD/MS)	25	2,358
5.	Diplomate of National Board (DNB)	9	68
6.	M. Physiotherapy (MPT)	5	10
7.	M.Pharm	4	85
8.	M.Sc., (Nursing)	5	111
9.	M.Phil. (Clinical Social Work)	1	15
10.	M.Sc., (Molecular Virology)	1	21
11.	M.Phil. (Clinical Psychology)	1	10
12.	M.Sc., Radiography and Imaging Technology	1	20
Total		**94**	**3,220**

3. National Centre for Ageing

The National Centre for Ageing, Guindy, Chennai-32 is a 200 bedded unit established with grants of the Government of India at a cost of Rs.151.17 crore. Average IP /Day	21,432
Deliveries per month	11,304
Caesareans per month	6,240
Major Surgeries per month	22,033
Minor Surgeries per month	1,54,987
Dialysis Done per month	25,346

CT Scan per month	34,170
Blood Collection per month	8,816
Blood Transfusion per month	3,958

District Head Quarters Hospital	37
Taluk Hospitals	199
Non Taluk Hospitals	59
Women & Children Hospital	7
TB Hospitals	2
Leprosy Hospitals	7
Rehabilitation Institute and Mental Health	1
Dispensaries	11
Total	**323**

Apart from the out patient and inpatient Services, these Hospitals provide the following additional services viz.,

District Headquarters Hospitals

- Full Fledged Lab
- USG Scan
- X-ray and Digital X-ray
- C-arm Ortho table
- ECG
- Ventilator
- Fully equipped modernized Operation Theatres.
- Comprehensive Emergency Obstetric & Neonatal Care Services Units (CEmONC)
- Intensive Care Units (ICU) with echocardiogram facility.
- Poison Treatment Centres
- Blood Banks and Blood storage centres
- MRI Scan Centres

- ❖ CT Scan Centres
- ❖ Mammogram
- ❖ Dialysis Unit

Taluk Hospitals

- ❖ Full Fledged Lab
- ❖ USG Scan
- ❖ X-ray / Digital X-ray
- ❖ C-arm for ortho services in selected hospitals
- ❖ ECG
- ❖ Operation Theatre
- ❖ CEmONC in selected Hospitals
- ❖ Poison Treatment Centres in selected hospitals
- ❖ Blood Banks and Blood storage centres in selected hospitals
- ❖ Neo-natal Intensive Care Unit / New Born Stabilisation Unit in selected Hospitals
- ❖ Dialysis Unit in Selected Hospitals

Non-Taluk Hospitals

- ❖ Full Fledged Lab
- ❖ USG Scan
- ❖ X-ray
- ❖ ECG
- ❖ Operation Theatre in selected Hospitals

In the CEmONC Centres functioning in the Headquarters Hospitals and the Taluk Hospitals, 24x7 emergency Obstetric care is given by a panel of Obstetricians, Paediatricians and Anaesthetists. specialized services such as health care of the elderly through Geriatric units and De-addiction centres for substance abusers are provided to the needy. The patients requiring further treatment are referred to the Tertiary care Hospitals for expert management.

The Directorate of Medical and Rural Health Services provides secondary care medical services and implements various programmes such as Revised National Tuberculosis Programme (RNTCP), District Mental Health Programme(DMHP), Accident and Emergency Care, Trauma Care, Occupational, Social and Environmental Health care services. The Directorate is also an appropriate authority for the implementation of Important Acts such as Pre-Conception and Pre-Natal Diagnostic Techniques (Prohibition and Sex Selection) Act 1994, Human Organ Transplantation Act 1994, Tamil Nadu Clinical Establishment Act etc.,

Services Provided in the Government Headquarters Hospitals

- Out-Patient and In-Patient services in General Medicine and General Surgery.
- CEmONC services
- Paediatric services
- Tamil Nadu Accident and Emergency Care Initiative (TAEI)

Specialized services

- ENT
- Ophthalmology
- Orthopaedics
- Paediatric
- Dental
- Dermatology
- Mental Health services
- Revised National Tuberculosis Programme - RNTCP
- Integrated Counselling and Treatment centres - ICTC
- Non Communicable Diseases (NCD) control Programme
- Leprosy Treatment

- ❖ Pain and Palliative care
- ❖ Day care Chemotherapy
- ❖ Accident and Emergency Service
- ❖ Trauma Care in selected Hospitals

Taluk Hospitals

- ❖ Out-Patient and In-Patient services in General Medicine and General Surgery.
- ❖ Maternal services
- ❖ Paediatric services
- ❖ Dental Services
- ❖ Treatment for Non Communicable Diseases
- ❖ Orthopaedic Services in selected Hospitals
- ❖ ENT Services in selected Hospitals
- ❖ Accident and Emergency Service / Trauma Care in selected Hospitals

Non-Taluk Hospitals

- ❖ Out-Patient and In-Patient Services in General Medicine and General Surgery
- ❖ Maternal Services
- ❖ Paediatric Services
- ❖ Emergency Services

Timing of Service

All Emergency care Services	24x7
Out Patient Services	
Morning OP	7.30 AM to 12.00 NOON All Days
Evening OP	3.00 PM to 5.00 PM (Except on Government Holidays and Sundays)
Referral services	24x7
In- Patient Services	24x7
Obstetric Services	24x7

Lab Services	
District Head Quarters Hospitals	24X7
Taluk and Non-Taluk Hospitals	During Outpatient Department (OPD) Hours
Diagnosis Services	
District Head Quarters Hospitals	24X7
Taluk and Non-Taluk Hospitals	During Outpatient Department (OPD) Hours

II. Details of Grievance Redressal Mechanism

i. Every hospital has a Complaint box to receive grievances from Citizens and Patients. The patient's satisfaction survey is also done under the National Quality Assurance System.

ii. Appropriate action is taken immediately for on-call complaints received through 104/108 call centres.

iii. Immediate and appropriate actions are taken in this Directorate and in the institutions functioning under this Directorate to rectify the petitions and grievances received through CM Cell, CM helpline.

iv. If any grievance received regarding the failure of operations like maternal death, misconduct of operations etc., an Inquiry is conducted by the Inquiry Officer designated by the Director and departmental action is initiated against the erring official according to rules in force.

CHAPTER - 4

DIRECTORATE OF MEDICAL AND RURAL HEALTH SERVICES (ESI)

1. Introduction

Employees' State Insurance Scheme of India is an integrated social security scheme formed to provide protection to employees in the organized sector and their dependents in contingencies, such as sickness, maternity and death or disablement due to an employment injury or sickness arising out of an occupational disease.

2. Applicability of the ESI Act

The ESI Act applies to any premises/precincts where 10 or more persons are employed. The "Appropriate Government", State or Central is empowered to extend the provisions of the ESI Act to various classes of establishments, industrial, commercial, agricultural or otherwise in nature. Under these enabling provisions, the State Governments have extended the ESI Act to certain specific classes of establishments such as Medical and Educational Institution, shops, hotels, restaurants, etc., employing 10 or more persons.

3. Wage Ceiling

Employees of covered units and establishments drawing wages upto Rs.21,000/- per month come under the purview of the ESI Act, 1948 for multi-dimensional social security benefits. Further the employees drawing wages upto Rs.25,000/- per month with disability like autism, cerebral palsy, mental retardation and multiple disabilities are also enrolled in this scheme.

4. Organization

As provided under the ESI Act, the Scheme is administered by a duly constituted body called the "Employees' State Insurance Corporation". It comprises members representing Central and State Governments, Employers, Employees, Members of Parliament and the medical profession. Union Minister of Labour and Employment as

Chairman of ESI Corporation, whereas the Director General, as its Chief Executive, discharges the duty of running the day to day administration.

A Standing Committee representing all stakeholders is selected from the corporate body for managing the affairs of the scheme and monitoring the progress of various corporate decisions and policies etc., taken from time to time.

The Medical Benefit Council, a statutory body advises the Corporation on matters related to the administration of Medical Benefits under the ESI Scheme.

Since, Health is State subject, the State Government bears the responsibility of providing 'full medical care' to the Insured Persons and their families. The ESI Scheme in the State is administered by a separate Directorate namely, Directorate of Medical and Rural Health Services (ESI) under the control of Labour Welfare and Skill Development Department.

5. Infrastructure

The Directorate is located in Chennai. A total of 11 ESI Hospitals are functioning in the State. Seven Regional Administrative Medical Offices (ESI) and Seven ESI Hospitals are functioning under the control of the Director of Medical and Rural Health Services (ESIs). One ESIC Medical College Hospital at Coimbatore is functioning under the control of the Director of Medical Education and Research, Chennai. Two ESIC Hospitals at Tirunelveli, Tiruppur and ESI Medical College Hospital at K.K. Nagar, Chennai are directly functioning under the control of ESI Corporation, New Delhi.

At present, there are 241 ESI Dispensaries in the State to provide primary health care to Insured Persons and their families. ESI Dispensaries are presently functioning throughout the State headed by the 7 Regional Administrative Medical Officers (ESI) at Chennai, Coimbatore, Madurai, Salem, Tiruchirappalli, Tirunelveli and Vellore.

Besides, to provide secondary health care to areas where there are no ESI Hospitals within 25 kms and to provide super-specialty treatment, tie-up arrangements have been made with reputed private Hospitals all over the State.

6. AYUSH units under ESI Scheme

A combined treatment of Ayurveda, Yoga, Unani, Siddha and Homoeopathy (AYUSH) is provided to the insured persons, in addition to allopathic treatment facilities in the following ESI Hospitals and ESI Dispensaries

Sl. No.	AYUSH Units	ESI Hospitals	ESI Dispensaries
1.	Ayurveda	8	13
2.	Yoga	8	0
3.	Unani	3	3
4.	Siddha	8	43
5.	Homoeopathy	3	3

7. Implementation of ESI Schemes Region wise:

There are 241 ESI Dispensaries in the following regions functioning all over Tamil Nadu for providing medical care to the Insured Persons and their family members.

Sl.No.	Name of the Region	Total Districts	Total Dispensaries
1.	Coimbatore	3	48
2.	Madurai	6	43
3.	Chennai	3	38
4.	Vellore	4	31
5.	Tirunelveli	9	26
6.	Salem	3	25
7.	Tiruchirappalli	10	30
Total		**38**	**241**

8. Fully Implemented Districts in Tamil Nadu

As per the ESI Corporation 2.0, 38 Districts are fully covered under the ESI schemes implemented in Tamil Nadu.

9. Contribution

The ESI Scheme is financed by contributions received from employees covered under the ESI Scheme and their employers as a fixed percentage of wages. Present rates of contribution are as under

(i) Employees' Contribution :- 0.75 percent of wages

(ii) Employers' Contribution :- 3.25 percent of wages

Employees earning up to Rs.176/- per day as wage are exempted from payment of their part of contribution.

The ESI and the State Government bears 7:1 share of expenditure on medical treatment of Insured Persons and their families and related expenditure within the per capita ceiling of Rs.3,000/- per annum and any other expenditure over and above the ceiling.

10. Medical Benefit

Employees covered under the ESI Scheme are entitled to medical facilities for self and dependents.

Medical care for self and family is admissible from day one of entering into insurable employment.

The Insured Persons and their family members are entitled to avail the following treatment facilities in ESI Hospitals / ESI Dispensaries and recognized by the medical institutions:

1. Outpatient treatment.
2. Domiciliary treatment, Specialities Consultation.
3. In Patient treatment, free supply of Drugs, Dressings, artificial limbs and aids and appliances.
4. Imaging and Laboratory services.

5. Other services like NCD, Ortho Surgery, Dental care and Surgeries, Cataract Surgery, Family planning, Hernia, Hydrocele, Surgery, immunization, Maternity and Child health program, treatment for occupational diseases and Physiotherapy treatments are also provided.

Further, Insured Women are entitled to Maternity Benefit for confinement. Reasonable Medical care is provided for self and spouse for employees who have retired on superannuation or retirement under VRS or premature retirement subject to having been in insurable employment for five years before leaving employment. In case the Insured Person who ceases to be in an insurable employment on account of permanent disablement due to employment injury till the date on which he would have vacated the employment on attaining the age of superannuation had he not sustained such permanent disablement.

The rate of contribution for superannuation/disabled Insured Persons is Rs.120/- per annum payable in one lump sum at the Branch Office for availing reasonable medical care for self and spouse.

11. Delivery of Medical Benefits

The delivery of Medical Benefits to insured persons under the ESI Scheme ensures that:

- The quality and quantity of medical benefits is as per norms and standards laid down by the Corporation for the purpose.
- The Office hours as notified for ESI institutions are strictly adhered to one and all and displayed prominently, so as to avoid any inconvenience to the beneficiaries.
- No harassment is caused to the beneficiaries across the counter at any level by way of word or deed.
- No beneficiary is exploited at any level in any way in the process of delivery of benefits.

- ❖ All requisite information, procedural guidance etc., is made available to the beneficiaries to claim benefits.
- ❖ All types of forms etc., are made available to the beneficiaries free of cost as may be required by them for filing claims etc.,
- ❖ Drugs, dressings, injections etc., are prescribed by the authorized doctors are made available timely.
- ❖ Provision of Super Specialty care through tie-up arrangement with reputed private hospitals subject to the eligibility certificate provided by the ESI Corporation.
- ❖ Provision of ambulance services and house visits by medical and para medical staff.
- ❖ A grievance redressal mechanism is provided for the beneficiaries to lodge their genuine grievances and get them redressed.

12. Redressal of Public Grievances

To ensure expeditious disposal and speedy redress of grievances under the ESI Scheme, the beneficiaries can report over telephone or in writing, by post or in person to any of the following officers:-

State level	The Secretary to Government, Health and Family Welfare Department, Chennai - 600 009.
	The Secretary to Government, Labour Welfare and Skill Development Department, Chennai – 600 009.
	Director of Medical and Rural Health Services (ESIs), Chennai
Regional level	Regional Administrative Medical Officer (ESIs)
Unit level	Chief Medical Officer of the ESI Dispensaries
	Medical Superintendent of the ESIs Hospitals

13. Right to Information Act

Under section 3 of the Right to Information Act, 2005, any citizen of India can seek information related to Employees State Insurance Corporation by applying with requisite fee from the following Public

Information Officers with the meaning of sections 5 and 2 (c) of the RTI Act.

a). Public Information Officer of the ESI Hospital

b). Public Information Officer of the Office of the Regional Administrative Medical Officer (ESI) of the Region

c). Deputy Director of the Medical and Rural Health Services (ESIs) / Public Information Officer, Directorate of Medical and Rural Health Services (ESIs), Chennai – 600 023.

14. General Information

For any other information about the scheme, beneficiaries may contact any of the following officers

Unit level	Chief Medical Officer of the ESI Dispensaries
	Medical Superintendent of the ESIs Hospital
Regional level	Regional Administrative Medical Officer (ESIs)
State level	Director of Medical and Rural Health Services (ESIs), Chennai

CHAPTER – 5

DIRECTORATE OF PUBLIC HEALTH AND PREVENTIVE MEDICINE

1. Vision

Public Health identifies, measures, and monitors health needs and trends at the community levels, locally and globally through surveillance of diseases and risk factor trends.

2. Mission

Functions of Public health include prevention and control of diseases and their progression through promotion of healthy lifestyles and healthy habits, promotion of healthy and hygienic environment including safe water and food, health education and community mobilization, empowering public particularly women to make healthy decisions, preventive measures including immunization, surveillance and monitoring, organizing high quality community based health services, camps and campaigns, investigation of health problems including infectious disease outbreaks, planning and preparation for natural and man-made disasters, reducing inequities among different regions and population groups for reaching the unreached, formulation of public health policies and strategies, development of dedicated and competent public health work force, public health infrastructure and operational research.

The Public Health and Preventive Medicine Department is functioning with 42 Health Unit Districts, each unit under a Deputy Director of Health Services.

3. Primary Health Care Strategy to achieve UHC

Primary health care is essential healthcare made universally accessible to individual and acceptable to them, through the full participation of the community and country can afford.

4. Elements of Primary Health Care

The eight essential components of primary health care as outlined by the Alma-Ata declaration are as follows:

i. Education concerning prevailing health problems and the methods of preventing and controlling them.

ii. Promotion of food supply and proper nutrition.

iii. An adequate supply of safe water and basic sanitation

iv. Maternal and child health care including family planning

v. Immunization against major infectious diseases

vi. Preventing and control of locally endemic diseases

vii. Appropriate treatments of common disease and injuries

viii. Provision of essential drugs.

5. Major Contributions of the Directorate of Public Health and Preventive Medicine for the Health and wellbeing of the people

a. Infant Mortality Rate (IMR)

The Infant Mortality Rate (IMR) is the number of deaths per 1000 live births of children below one year of age. The current level of IMR in Tamil Nadu is 11 per 1,000 live births as per the Sample Registration System (2024) survey. The State is taking multi-pronged efforts to bring down the IMR on par with developed nations focusing on the components such as the neo-natal mortality rate etc. The Current IMR is around 6.9 as per HIMS report.

b. Maternal Mortality Ratio (MMR)

Maternal Mortality Ratio (MMR) is calculated as the number of maternal deaths during a given year per 1,00,000 live births. In

Tamil Nadu, MMR has been reduced to 25 per lakh live births as per SRS data 2024. Government of Tamil Nadu aims to bring down MMR on par with developed nations. The Current MMR is 39.5 in 2025 as per HIMS report.

6. Eradication / Elimination of Vaccine Preventable diseases and other infectious Diseases

i. Small pox eradicated in1977

ii. Polio free Tamil Nadu in February 2004 and Polio free India in 2014

iii. In Tamil Nadu, Maternal and Neo-natal tetanus eliminated in 2006 and validated in 2015 by Government of India

iv. In Tamil Nadu, Guinea worm disease not reported since 1983 and declared eradicated in 1995

v. Yaws cases not reported since 2006 and eradicated in 2015

vi. Leprosy elimination goal achieved in 2005

vii. Malaria elimination will be achieved in 2030

7. The institutions functioning under the Directorate include the following

- Sub-Health Centres
- Primary Health Centres (PHCs) in rural areas
- Primary Health Centres (PHCs) in urban areas
- Community Health Centres and Upgraded Primary Health Centres
- Regional Entomological Teams
- National Filaria Control Units
- Research and Action Projects
- Filaria and Malaria Treatment Centres
- Leptospirosis Treatment Centres
- Japanese Encephalitis Control Units

- Water Analysis Laboratories located at the King Institute Campus, Guindy, Chennai, and at Coimbatore, Tiruchirappalli, and Tirunelveli
- State and District Public Health Laboratories
- Public Health Institute, Poonamallee
- Health and Family Welfare Training Centres at Egmore, Chennai, and Madurai
- Health Human Resource Development Institutes at Salem and Villupuram
- Regional Public Health Training Institute, Thiruvarankulam
- Institute of Vector Control and Zoonoses, Hosur
- Health Visitor Training School, Triplicane
- Auxiliary Nurse Midwife (ANM) Training Schools.

8. Health Sub Centres (HSC)

Health Sub Centre (HSC) is established for a population of 5,000 in plain areas and 3,000 in hilly areas. HSCs are the hub for delivering Maternal and Child Health (MCH) and Family Welfare (FW) services to the people in the rural areas. There are 9,330 HSCs in Tamil Nadu.

Functions of Health Sub Centre

- All pregnant women are registered by the Village Health Nurses before 12 weeks of pregnancy and given Antenatal care, Immunisation care, Family Welfare Services and all other MCH care.
- Antenatal care includes two doses of Tetanus diphtheria (Td) Injections and distribution of Iron and Folic Acid (IFA) tablets.
- The Health Sub Centre area is divided into 4 units and following services are provided by Village Health Nurse as follows:-

Monday	Antenatal Clinic
Tuesday	Antenatal care at PHC and Review Meeting
Wednesday	Outreach Immunization
Thursday	House to House Visit
Friday	Village Health and Nutrition Day (VHND)
Saturday	House to House Visit

- Village Health Nurses are providing medicine for minor ailments in the afternoon
- Village Health Nurses gives counselling on Permanent Family Welfare services and provide temporary services.
- Non-communicable diseases (NCD) like Diabetes, hypertension, Cancer cervix and Breast cancer Screening, Referral and follow up done by Village Health Nurse.
- The Health Inspector at one per 3 HSCs is responsible for prevention and control of Communicable Diseases, Checking of Births and Deaths Registration, Health Education, Surveillance, etc.
- The Health Inspector visits the Village and takes blood smear from fever case patients to detect malaria.
- The Health Inspectors are collecting Sputum from persons having cough more than 2 weeks and sent to Primary Health Centers for examination. If found positive for tuberculosis, treatment is started through Primary Health Centers.
- Chlorination of water sources and disinfection of unhygienic places are monitored by the Health Inspectors.
- Screening of leprosy cases and treatment initiation done by Health Inspector.
- Health Inspector organizes public health activities during festivals.
- Health Inspector motivate for male sterilization and distribute condoms.

9. Primary Health Centre (PHC)

Primary Health Centre (PHC) in rural area is established for a population of about 30,000 in plain areas and 20,000 in hilly areas. Now, time to care' concept is also considered for remote and interior areas. In Tamil Nadu, there are 1,832 PHCs functioning under to improve the availability of Primary Health Care services to the urban poor, 345 Urban PHCs are functioning under the control of the Directorate of Public Health and Preventive Medicine (DPH&PM) in urban areas. 159 Urban PHCs are functioning in Greater Chennai Corporation. The concept in urban areas is to have a facility for primary care for every 50,000 population and a Community Health Centre for every five-lakh population.

Functions of Primary Health Centres

- Medical Care
- Basic laboratory services
- MCH care including Antenatal care and Delivery care services
- Family planning services
- Health Programme Implementation
- Health Education and training
- Safe water supply and basic sanitation
- Prevention and control of locally endemic diseases
- Collection and reporting of vital events

10. Universal Health Coverage (UHC)

Universal Health Coverage (UHC) is a global priority supported by the World Health Organization and is linked to the United Nations Sustainable Development Goal 3 (Good Health and Well-being). The World Health Organization defines UHC as ensuring that all people and communities can access the health services they need without facing financial difficulties. UHC aims to bring Comprehensive Primary Health Care Services (CPHC) closer to people making healthcare more accessible and reducing Out-of-Pocket Expenditure (OOPE). These 12

CPHC services include health promotion, disease prevention, treatment, rehabilitation, and palliative care, helping to ensure affordable and equitable healthcare for everyone. The 12 CPHC services are

i. Care during pregnancy and child birth
ii. Neonatal and Infant health care services
iii. Childhood and Adolescent health care services
iv. Family planning services
v. Management of common communicable diseases
vi. Out-patient care for acute simple illnesses and minor ailments
vii. Screening and management of Non- Communicable Diseases
viii. Screening and management of Mental Health Ailments
ix. Care for common Ophthalmic and ENT problems
x. Basic Dental health care
xi. Geriatric and palliative health care services
xii. Trauma care (that can be manageable at this level) and emergency medical services

11. Hospital on Wheels Programme (HoWP)

The Hospital on Wheels Programme provide health care services in remote villages and far flung areas. At Present, 416 Hospital on Wheels team is functioning in the State. Each team consists of One Doctor, One Staff Nurse, One Lab Technician, One Driver and One Attender cum cleaner and a well equipped laboratory facilities for performing laboratory test like Blood, Urine and Sugar test etc.,

The Ultimate aim of Hospital on Wheels Programme is to provide high quality medical care with focus on mother and child health services communicable and non communicable diseases covering all the remote villages and hamlets as per the Fixed Tour Programme (FTP) specifically for each block.

Information boards about the day and time of visit are permanently displayed at the camp site. Two camps one each at forenoon and afternoon are conducted on Monday, Wednesday,

Thursday and Friday and one camp to be conducted on Tuesday and Saturday. On Tuesday afternoon HoWP MO and other team staff attend the Primary Health Centre review meeting in rotational lPHCs within the block for planning and discussing the issues related to the functioning of the HoWP. 40 camps are being conducted per month per block as per Fixed Tour Programme.

12. Major Components of Public Health

i. Maternal and Child Health including Family Welfare and Immunisation
ii. Prevention and Control of Infectious Diseases
iii. Prevention and Control of Non-Communicable Diseases
iv. Maintaining Public Health during natural and manmade calamities

13. Civil Registration System

The core function of State Bureau of Health Intelligence functioning under the Directorate of Public Health and Preventive Medicine is the Civil Registration System programme. The Civil Registration System Programme is a permanent, continuous and compulsory Recording and Registration of Vital events such as Birth, Death, Still Birth and Foetal Death occurring throughout the State.

It is Governed by Central Act – Registration of Births and Deaths Act, 1969 (amended in 2023) and the Tamil Nadu Registration of Birth and Death Rules, 2025. The Civil Registration system has been digitized from 1.1.2018 and carried out in 16,391 Registration units. The public can download the Birth and Death Certificates at free of cost from CRS portal(crstn.org). In the year 2025, 8,02,084 births and 6,89,954 deaths have been registered and certificates have been issued.

In 2023, Registration of Births and Deaths Act, 1969, have been amended and the corresponding Registration of Births and Deaths Rules, 2025 have been framed by the Director of Public Health and Preventive Medicine and the Chief Registrar of the Births and Deaths, Tamil Nadu and laid before the State Legislative Assembly.

14. Primary Health Centre Services

In Tamil Nadu, 1,832 Rural Primary Health Centres in 388 blocks and 504 Urban PHCs are functioning throughout the State as curative and Preventive Health Care Centre. The important services provided by the Primary Health Centres are,

- Out-patient, in-patient services
- Ante-Natal care, Delivery Care, Post Natal Care and Family Welfare Services
- Treatment for infectious diseases like Diarrhoea, fever etc.,
- Maternal and Child Health services.
- Laboratory Services.
- Prevention and control of communicable diseases.
- Screening for Non-communicable diseases like Diabetes, Hypertension and Cancer under Makkalai Thedi Maruthuvam scheme.
- School Health Programmes (RBSK, RKSK & WIFS)
- Issuance of Maternity Benefits under Dr.Muthulakshmi Reddy Maternity benefit scheme and supply of Baby Care kits.
- Conduction of weekly immunization programme.
- Vector Borne diseases control services
- Anaemia Control Programmes.
- Vitamin-A deficiency control Programmes.
- Leprosy eradication services.
- Tuberculosis control services.
- All National welfare programmes

In the current year 2025-2026, 16.73 crore outpatients are treated and 41.25 lakh inpatients are treated in the Primary Health Centres. 35,060 deliveries have been conducted in the PHCs.

CHAPTER – 6

DIRECTORATE OF FAMILY WELFARE

The primary aim of the Directorate of Family Welfare, Tamil Nadu is to improve the Reproductive, Maternal, Newborn, Child, and Adolescent Health Plus Nutrition (RMNCAH+N) services of the population by ensuring universal access to quality family welfare services, promoting informed reproductive choices, stabilizing population growth, and reducing maternal, infant and child morbidity and mortality while improving the overall quality of life of families.

1. Vision and Mission

Vision

"Healthy families, healthy mothers, healthy children and a stable population through equitable, accessible, high-quality, rights-based family welfare and reproductive health services for every citizen of Tamil Nadu."

i. To provide Quality Family Welfare Services to all Eligible Couples to help them attain their desired number of children (desired family size) with healthy timing and spacing between births, according to their preferences.

ii. To maintain the Total Fertility Rate (TFR) between 1.9 to 2.0, as the present TFR of the State is 1.3 as per Sample Registration System (SRS) 2024 data.

iii. Increasing the modern Contraceptive Prevalence Rate (mCPR) from 65.1% (NFHS-6- 2023-24) to 70.0%.

iv. Reduction of the unmet need on Family Planning services from 6.4 (NFHS-6- 2023-24) to Nil.

v. No Single death due to FW sterilization and MTP procedure.

vi. To enhance male participation in family planning to attain gender equity in sterilization.

vii. To provide safe and legal abortion services in accordance with the MTP Act and Amendments and to improve access for adolescents, unmarried women and vulnerable population.

viii. Strengthen adolescent reproductive health services.

ix. Provision of Uninterrupted Family Welfare Services in Government Health facilities at all levels of health care.

x. Intensifying Social and Behavior Change activities (SBC) for Family Planning and strengthening access to information and services for all girls and women and couples with specific focus on young people.

xi. Expanding the Basket of Contraceptive Choices, strengthening the supply chain on Family Planning Commodities, community engagement and private sector engagement.

Mission

Tamil Nadu is one of the leading States in our country in successfully implementing the Family Welfare Program. Tamil Nadu has far below the replacement level of fertility. The main objective of the program is to maintain the Total Fertility Rate (TFR) necessary to stabilize the population at a consistent level.

The Directorate of Family Welfare focusses on improving maternal & child health outcomes, promoting informed family planning choices, ensuring universal access to quality reproductive health services, Quality on family planning services and expanding the range and access of safe abortion services.

2. Details of Business transacted by the Organization

i. Providing Female / Male Sterilization services in the Government Health facilities, including Private Nursing homes and Non-Government Organizations.

ii. Providing Temporary spacing methods: such as

Temporary Spacing Methods	Name of the Contraceptives
Intrauterine Contraceptive Device (IUCD)	IUCD 380A (10 Years) & IUCD 375 (5 years)
Oral Contraceptive Pills	Daily Pills - Mala 'N'
	Weekly Pills – Chhaya (Centchroman pills)
Injectable contraceptive MPA	Antara (Medroxy Progesterone Acetate)
Contraceptive Condoms	Nirodh
Emergency Contraceptive pills	Ec Pills
Subdermal Contraceptive Implant	Single Rod

iii. Providing Medical Termination of Pregnancy (MTP): Medical Method of Abortion (MMA), Surgical method of Abortion.

iv. Training of Medical Officers in NSV, Mini-lap, Laparoscopic, IUCD/PPIUCD Insertion, Injectable Contraceptives (ANTARA), Subdermal Contraceptive Implant and Comprehensive Abortion Care (MMA/MTP).

3. Details of 'Citizens' or 'Clients':

I. Eligibility for undergoing Female / Male Sterilisation:

i. Clients should be ever married.

ii. Female clients should be above the age of 22 years and below the age of 49 years.

iii. Male clients should be above the age of 22 years and below the age of 60 years.

iv. The couple should have at least one child, whose age is above one year unless the sterilization is medically indicated.

II. All other women/men can avail any one of the temporary contraceptive methods.

4. Services provided by the Department to each citizen / Client

Sl. No.	Type of Services	Health Facilities providing the services
1.	IUCD Insertion	All Public Health facilities / Private Nursing Homes.
2.	Distribution of Oral Pills (Mala–N), Chhaya and Nirodh	All Public Health facilities including Health sub-centres and ASHA (Home Delivery of Contraceptives).
3.	Antara Injection	All Public Health facilities
4.	Subdermal Contraceptive Implant	Implemented in three Districts: Chennai, Dharmapuri and Madurai. (Selected Govt. Health facilities only)
5.	Female Sterilization (Minilap / Laparoscopic Sterilization)	Government Medical College Hospitals / Government Hospitals / Primary Health Centres / Private Nursing Homes.
6.	Male Sterilization (Conventional / Non Scalpel Vasectomy)	Government Medical College Hospitals / Government Hospitals / Primary Health Centres / Private Nursing Homes.
7.	Comprehensive Abortion Care	Government Medical College Hospitals / Government Hospitals / Primary Health Centres and Approved Private Nursing Homes.

Furthermore, provision of temporary family planning methods and Comprehensive Abortion Care (CAC) services to prevent unwanted and unintended pregnancies, promote marriage and conception at the right age, and ensuring Healthy Timing and Spacing between births for the well-being of mother and child and to prevent unintended pregnancies.

Details of Grievance Redressal Mechanism and how to access it:

The Spouse of the Acceptor or Acceptor should approach the Medical Officer of the Government institutions in the event of Death, failure, complication arising out of Family Welfare Services.

If the clients are not satisfied, appeal may be made with the Deputy Director of Medical and Rural Health Services and Family Welfare of the concerned District.

Rights of the Medical Beneficiary in all Indian System of Medicine and Homoeopathy Hospitals

- The Doctor will be present in the Hospital to treat the medical beneficiaries in stipulated time mentioned in the Hospitals.
- Medical beneficiaries on entering the Hospital will receive attention within half-an-hour. The medicines will be distributed to them within half-an-hour of the consultation being over.
- The Doctor will treat the medical beneficiaries cordially and attentively.
- The Doctor will explain to the medical beneficiaries about the nature of disease and the method of treatment. The prescription will be neatly written with the dosage also indicated. The Staff try to instill confidence in the minds of the medical beneficiaries.
- Best medical facilities are rendered to the patients and good efforts are initiated for speedy recovery of the medical beneficiaries.
- Since every medical beneficiary has right to consult other Doctors, patients needing further treatment are referred to other Hospitals without any delay.
- The Staff do not demand or receive any reward in cash or kind from the medical beneficiary or their relatives.

Production of Quality Drugs

Quality medicines are being prepared using quality herbs. To provide quality medicines free of cost to the public, medicines are manufactured in two Government Pharmacies functioning under the Directorate of Indian Medicine and Homoeopathy. One pharmacy is located within the campus of the Arignar Anna Government Hospital of Indian Medicine, Chennai, and the other within the campus of the Government Siddha Medical College, Palayamkottai. The Government Pharmacy at the Arignar Anna Government Hospital of Indian Medicine, Chennai, manufactures Siddha, Ayurveda, and Unani medicines. The Government Pharmacy at the Government Siddha Medical College, Palayamkottai, manufactures Siddha medicines.

Quality Control of Drugs (IM) / State Licensing Authority (IM)

To ensure better quality assurance of ISM drug and better enforcement Drugs and Cosmetics Act, 1940, a separate Licensing Authority and a separate Drug Testing Laboratory (IM) have been established.

According to Drug and Cosmetics Act, 1940, there should be a separate enforcement mechanism exclusively for Indian Medicine. In pursuance of the above provision, the Government has appointed a separate Licensing Authority for Indian Medicine and all the District Siddha Medical Officers have been appointed as Drug Inspectors of their respective jurisdiction for Indian Medicine. A separate Office for the Licensing Authority has been established and has been functioning, since 2007.

State Drug Testing Laboratory (Indian Medicine & Homoeopathy)

State Drugs Testing Laboratory (Indian Medicine & Homoeopathy) was established to strengthen the enforcement mechanism of Chapter IV-A of Drugs and Cosmetics Act 1940, Rules, 1945, ensuring issue of quality Medicine of Indian Systems to public. Drug Testing Laboratory (IM) has got statutory status with effect from 12.01.2010.

The prime duty of this Laboratory is to test statutory samples received from Drug Inspectors notified under section 33G of Drugs and Cosmetics Act, 1940. The Laboratory is equipped with Hi-tech instruments for qualitative and quantitative analysis of Ayurveda, Siddha, Unani and Homoeopathy drugs as per pharmacopeial specifications for the purpose of standardization and quality control of Indian Medicine and Homoeopathy.

5. Details of Grievance Redress Mechanism and how to access it:

- ❖ Public can register the complaint to CM Cell through online petitions and tapals. Reply is sent to petitioner through online and intimated to CM Cell.
- ❖ Public can make Suggestion / Complaint through Toll Free Number 1100 for early redressal.

6. Expectation from the 'Citizens' or 'Clients'

- ❖ Citizens or Clients are expecting opening of more Indian Systems of Medicine College and Hospitals in the State.

7. Additional commitments such as compensation in the event of failure of service delivery

- ❖ Not applicable.

CHAPTER – 8

FOOD SAFETY AND DRUG ADMINISTRATION DEPARTMENT

Objective

- The Food Safety and Standards Act, 2006, main objective is to bring out a single statute relating to food and to provide a systematic and scientific development of Food Processing Industries.
- Food Safety and Standards Authority of India (FSSAI) which will fix food standards and regulate / monitor the manufacturing, import, processing, distribution and sale of food, so as to ensure safe and wholesome food for the people.
- The Food Safety and Standards Act, 2006, is being implemented in whole of the country with effect from 05.08.2011. It is implemented in the State by the Department of Food Safety.

Enforcement Activities

License & Registration Certificate

As per Food Safety and Standards Act, 2006, all the Food Business Operators shall get Registration certificate / State License / Central License depending upon their annual turnover.

Food business operator having annual turnover upto 1.5 crore	Should get Registration Certificate issued by Food Safety Officer
Food business operator having annual turnover of above 1.5 Crore upto Rs. 50 Crore	Should get State License issued by Designated Officer
Food business operator having annual turnover of above 50 Crore	Should get Central License issued by Central License Authority

- From the year 2013, Food Safety and Standards Authority of India (FSSAI) maintains an exclusive portal (https://foscos.fssai.gov.in/) for online application and issue of License and Registration certificates.
- 5% increase in number of license and registration to be implemented, based on the data as on 31.03.2026
- 1,542 camps to be organised for increasing licensing and registrations.

Enforcement Samples

- Periodical inspections are being carried out in all the food establishments such as manufacturing, storage and selling units and the samples are being lifted by the Designated Officers / Food Safety Officers. Criminal cases or adjudication cases will be filed if the samples are found to be unsafe or substandard / misbranded.
- In this year the target for enforcement sample is 10.

Food Safety Training and Certification (FoSTaC);

- The FoSTaC programme is aimed at creating a pool of food safety supervisors (FSS), who are trained in good hygiene and manufacturing practices as per requirements in Schedule 4 of Food Safety and Standards Licensing and Registration Regulations, 2011.
- In this year (2026-2027), 5,231 FoSTaC training to be organised for ICDS, Noon meal centre, PDS shops, CM Breakfast Scheme, Street Food Vendors and Tasmac.

Eat Right Initiatives;

- The aim is to promote both the demand and the supply of safe and healthy food in a sustainable way.
- In this year (2026-2027), the target fixed to get the Eat Right Initiatives Certificates is detailed below;

- ❖ 408 locations Eat Right Campus certificates
- ❖ 330 clusters Eat right School
- ❖ 27 locations Clean Street Food Hub
- ❖ 44 markets Clean Fruit and Vegetable market
- ❖ 196 Place of Worships Blissful and Hygienic Offering to God (BHOG)
- ❖ 11,237 places Hygiene Rating Certificates

Action Taken on Banned Food Products Containing Tobacco / Nicotine

The Compounding penalty amount has been revised for the sale of banned food products containing Tobacco and Nicotine upto Rs.1,00,000 from 04.01.2024 and the executive order issued on 02.07.2025.
- ➢ **For 1st time offence**, Rs.25,000/- penalty with Suspension of License/ Registration Certificate and close the premises / shops. Simultaneously compounding penalty of Rs.5,000/- should be imposed for running food business without Registration Certificate / License. Conditions for revocation of suspension of License / Registration Certificates not less than 14 days from the date of suspension.

- **For 2nd time offence**, Rs.50,000/- penalty with suspension of License / Registration Certificate and close the premises / shops. Conditions for revocation of suspension of License / Registration Certificates not less than 30 days from the date of suspension.
- **For 3rd time offence**, Rs.1,00,000/- penalty with Suspension of License / Registration and close the premises / shops. Conditions for revocation of Suspension of License / Registration Certificates not less than 90 days from the date of Suspension.
- **For 4th time offence**, File a case before adjudicating officer under section 55 & 58 of FSS Act, 2006.

Food Analysis Laboratories

The six Food Analysis Laboratories located in Tamil Nadu at Chennai, Madurai, Coimbatore, Salem, Thanjavur, and Palayamkottai analyze all Food categories as per Food Safety and Standards Act, 2006. All the six Food Analysis Laboratories are accredited and having integrated certificate by National Accreditation Board for Testing and Calibration Laboratories (NABL) and Food Safety and Standards Authority of India. Setting up of Microbiology Labs is in process in three Food Analysis Laboratories and completed in FAL, Guindy, Coimbatore, and Madurai.

CHAPTER – 9

DIRECTORATE OF DRUGS CONTROL ADMINISTRATION

I. Vision and Mission statement of the organization

Vision

Ensure the availability of quality and safe drugs to the public at right prices

Mission

- Drugs Control Department, being statutory body, the organization performs a very important role in supporting healthcare service regulations and enhancing safety of our community.
- As a statutory body for Drugs Control, the department distinguishes the massive challenges posed by spurious /adulterated /not of standard quality drugs, selling drugs at excess pricing, misleading advertisements by some manufacturers and dealers.
- Monitor the quality, safety, efficiency and rational use of drugs at controlled prices, collection and supply of safe blood and blood components, scrutinizing the misleading advertisements to safeguard the interests of the unwary people.
- Draw samples of Drugs & Cosmetics for the purpose of test or analysis to ascertain its quality, purity and safety. It has a well-equipped statutory laboratory, to undertake the analysis.
- It has a dedicated work force that is known for their skill, knowledge, and professional integrity.
- The quality of drugs is beyond the understanding of common man. It is the responsibility of the Department to ensure the availability of quality drugs, Cosmetics & Medical Devices to the public and the market is free from, spurious and substandard drugs, Cosmetics & Medical Devices and drugs are sold at a price not higher than the retail price marked on the container.

VII. Expectations from the 'citizens' or 'Clients'

- The quality, safety, efficacy and rational use of drugs at controlled prices.
- Collection and supply of safe blood and blood components.
- The misleading advertisements of drugs to safeguard the unwary public.

CHAPTER – 10

TAMIL NADU STATE HEALTH TRANSPORT DEPARTMENT

Introduction

This Department is responsible for repairs and maintenance of all Health and Family Welfare department vehicles within the state. This includes Hospital on Wheels, Mobile X-ray, Construction Workers Mobile Medical Units, Mobile Ophthalmic Units, Vaccine Carriers and other vehicles, crucial to the functioning of healthcare services.

1. Vision and Mission

Vision: To function as a 'Model Department' in all aspects and to assure and ensure all the vehicles in the fleet of Health and Family Welfare Department in Tamil Nadu remains Healthy.

Mission: To effectively and economically maintain the vehicles attached to Health and Family Welfare Department while also providing a robust Grievance Redress Programme. To act as a 'One Stop Solution' provider to all the issues faced by the vehicle users in repairs, maintenance, operation of vehicles and also in their condemnation and disposal.

2. Departmental Workshops

Seven Regional Workshops at - Chennai, Salem, Vellore, Tiruchirappalli, Coimbatore, Madurai, Tirunelveli and Nine District Workshops at Chengalpattu, Dharmapuri, Villupuram, Thanjavur, Pudukkottai, Erode, Udhagamandalam, Virudhunagar, Nagercoil and Nine Mini Workshops at DMS Campus Chennai, Poonamallee, Tirupattur, Kallakurichi, Attur, Namakkal, Tiruppur, Karur and Sivakasi are functioning under the administrative control of this Department. Apart from these workshops, Twenty-Nine Mobile Workshops spread over the State, conduct camps to render periodical service and execute minor repairs at the doorsteps of vehicle-owning officers.

3. Fleet Details

The details more than 3000 vehicles in the maintenance fleet of the department including registration numbers, models and vehicle users are published and regularly updated by the department, on its official website https://tnhealth.tn.gov.in/tngovin/healthtransport/healthtransport.php

4. Principal activities undertaken

- Maintaining all the vehicles of Health and Family Welfare Department in a proficient manner with prudent use of resources and delivering them after repairs within the fixed time frames.
- Providing professional assistance to various Directorates of Health and Family Welfare Department in choosing the right Type / Model of vehicles during purchase of new vehicles and in identifying worn out vehicles that are uneconomical to maintain during replacement.
- Providing technical assistance and guidance to the concerned departments during fabrication of special purpose vehicles.
- Acting as a Repository of data related to all the vehicles in the fleet.
- Promptly disposing all the condemned vehicles of Health and Family Welfare Department, 108 Ambulances and Free Hearse Service vehicles through e-auction.

5. Time frames fixed for the services provided through departmental workshops

Time limits and deadlines have been fixed for each type of service offered by this department in order to ensure prompt delivery of service.

- Renewal of tyre, battery, oil and lubricants – Immediate.
- Rendering of tow service, periodical service, rectification of repairs in the breakdown vehicles - Same day.
- Redressal of vehicle maintenance related complaints received through Grievance Redressal Programme – Attend to the complaint on the same day itself and resolve all the faults within 5 days.
- Maximum detention period of Hospital on Wheel (HOW) vehicles, Vaccine Carriers, Mobile X-ray and other special progarmme vehicles, irrespective of the magnitude of repairs – 20 days.

6. Details of Grievance Redress Mechanism

Feedback Programme

To get constructive feedback from the drivers who had availed services from the department, each and every driver who had taken delivery of vehicles from the departmental workshops after rectification of defects are contacted over phone from the directorate. The shortcomings pointed out are immediately rectified and constructive feedback received are used to improve the services offered.

HICORP (an acronym for Health department vehicles Information and Complaint Redressal Programme)

For the benefit of the vehicle users, this Grievance redressal programme is being implemented by this department. This is a first of its kind single window complaint redressal programme implemented in a vehicle maintenance department. All complaints received through the programme are resolved within the fixed time frames. The Vehicle Using Officers and Drivers can avail this service through the programme's Helpline No.94896 21111.

Escalation of Grievance

To ensure full transparency, all repairs executed in departmental workshops together with details of components replaced (including small parts like nuts and bolts) are recorded in the respective vehicle Part II logbooks maintained by the vehicle users and a job Completion Report with the above details is also sent to them.

If any of the vehicle users are not satisfied with the quality of Spares / Tyres / Batteries replaced or of workmanship or of non-completion of requested works in the departmental workshops or of the manner any grievance was redressed, they can escalate the same and bring it to the Director's notice by email directorate.tnshtd@nic.in.

7. Expectations from vehicle users:

- To replace worn out tyres and batteries as quickly as possible.
- To regularly replace engine oil at the specified intervals without fail.
- To deliver the faulty vehicles admitted in Workshops as early as possible and after rectification of all the requested works.
- To ensure that all the vehicles after undergoing Fitness Certificate renewal related works in the workshops meet all necessary safety, environmental and operational standards.
- To provide a robust Grievance Redress mechanism for hassle free operation of vehicles.

CHAPTER – 11

c. Information and feedback regarding Chief Minister Comprehensive Health Insurance Scheme (CMCHIS), Dr.Muthulakshmi Reddy maternity Benefit Scheme are channelled through this service.

d. Public can also make complaints / suggestions about functioning of any Government Health facility in the State.

e. The total number of beneficiaries benefitted under this scheme, during the period from April 2025 to March 2026 are 2,65,876.

II. Tele-MANAS

"NATPUDAN UNGALODU – MANA NALA SEVAI – 14416 Help line", Tele-MANAS (Tele-Mental Health Assistance and Networking Across States) a state project of the central government initiative, the 24 X 7 toll free mental health helpline offers comprehensive mental health services. This service was launched on 27.10.2022.A total number of 4,97,388 beneficiaries have benefited under this scheme from its launch up to March 2026.

Services offered by "Natupadan Ungalodu- Mana Nala Sevai":

a. Counselling for NEET aspirants and persons with suicidal tendencies.

b. Identification and screening for mental health issues.

c. Handling calls related to mental health emergencies and immediate referral to District Mental Health Programme.

d. Categorization according to severity and appropriate referral.

e. Information providing and Guidance related to mental health and allied issues.

f. Psycho education and Supportive Counselling.

III. '102' – Janani Sishu Suraksha Karyakram (JSSK):

Free drop back service to delivered mothers and treated sick infants from Government Hospitals to their homes under 102-JSSK Scheme, funded by NHM. Totally, 130 vehicles are functioning under this service.

IV. '155377' Free Hearse (Mortuary Van) Services:

The corpses of the deceased are transported from the Government Hospitals to the place of disposal or home, free of cost irrespective of the distance within the State. This 24x7 service can be utilized by calling centralized Toll-Free Number '155377'. Number of corpses transported from April 2025 to March 2026 are 1,62,811. At present 194 vehicles are in service.

CHIEF MINISTER'S COMPREHENSIVE HEALTH INSURANCE SCHEME

Commencement of the Scheme	23.07.2009

INNUYIR KAPPOM THITTAM – NAMMAI KAKUM – 48

The Government of Tamil Nadu launched a new scheme "Innuyir Kappom Thittam – Nammai Kaakkum 48" on 18.12.2021 to address the increasing death rates due to road traffic accidents.

Under this scheme, 101 designated treatment modalities / procedures for damage control measures costing up to Rs.2 lakh per individual will be extended on a cashless basis on assurance mode to all victims of RTAs occurring within the territory of Tamil Nadu, irrespective of whether they possess a Chief Minister's Comprehensive Health Insurance Scheme (CMCHIS) insurance card or not, including people from other states / foreigners. Treatment is provided under the 'Assurance mode' with a cost ceiling of up to Rs.2 lakh per person.

Under this scheme 773 hospitals, including 266 upgraded Government Hospitals and 507 private hospitals are empanelled to facilitate the provision of medical treatment. To reduce the deaths due to Road Traffic accidents **"Nammai Kaakkum – 48"** Scheme is launched to provide free emergency medical care during the first 48 hours of an accident.

From 18.12.2021 to 31.03.2026 a total of 5,41,870 patients availed treatment under the scheme an amount of Rs.527.12 crore. Out of these, 4,99,600 patients availed treatment in Government Hospitals at an amount of Rs.447.43 crore.

CHAPTER – 13

TAMIL NADU MEDICAL SERVICES CORPORATION LIMITED

Vision

- To strengthen public healthcare delivery by ensuring timely access to quality-assured medicines, medical consumables and healthcare commodities across all Government healthcare institutions.
- To enable world-class healthcare infrastructure through efficient procurement, maintenance and lifecycle management of medical and non-medical equipment.
- To facilitate equitable access to advanced diagnostic, therapeutic and healthcare support services for the people of Tamil Nadu.
- To emerge as a nationally recognized centre of excellence in healthcare procurement and supply chain management.

Mission

To achieve the above vision, the Tamil Nadu Medical Services Corporation shall:

- Adopt transparent, competitive and efficient procurement practices in accordance with applicable laws, rules and regulatory requirements.
- Ensure uninterrupted availability of quality medicines, medical consumables, healthcare commodities and medical equipment through robust procurement, quality assurance and inventory management systems.
- Strengthen healthcare supply chain systems through modern warehousing, efficient logistics and technology-enabled distribution networks.
- Leverage digital platforms for real-time monitoring of procurement, inventory, equipment maintenance and service delivery.

- Uphold the highest standards of quality, patient safety, accountability and operational excellence through continuous improvement and regulatory compliance.
- Ensure effective contract management, timely settlement of eligible payments and performance monitoring of suppliers and service providers.

Core Functions and Services

TNMSC functions as the State's nodal agency for healthcare procurement, supply chain management and healthcare support services. The major functions of the Corporation include:

- Procurement, quality testing, storage and distribution of human drugs, speciality drugs, veterinary drugs, medicines, surgical consumables, sutures, reagents and other healthcare commodities for Government institutions.
- Procurement, installation, maintenance and lifecycle management of medical equipment for Government healthcare and veterinary institutions.
- Operation and maintenance of advanced diagnostic facilities, including CT Scan, MRI, PET-CT, Lithotripsy and other specialized diagnostic services, at affordable rates and through the Chief Minister's Comprehensive Health Insurance Scheme (CMCHIS).
- Operation and maintenance of high-end therapeutic equipment for cancer care and other specialized treatment services in Government healthcare institutions.
- Procurement and supply of healthcare commodities for Government flagship programmes, including Maternal and Child Health Nutrition Kits, Mother and Baby Care Kits and Menstrual Hygiene Programmes.
- Management of healthcare logistics, inventory and distribution through digital platforms such as the Drug Distribution Management System (DDMS) and Equipment Maintenance Management System (EMMS).

- Warehousing, inventory management and distribution of healthcare commodities across Government healthcare institutions.
- Facilitation of healthcare support services, including housekeeping, security, dietary services, biomedical waste management, oxygen supply and laboratory services through standardized procurement mechanisms.
- Provision of technical support and maintenance services for medical equipment to ensure optimum functionality and service continuity in Government healthcare institutions.
- Provision of procurement and logistics support, consultancy and knowledge-sharing services to other States and Government organizations, wherever entrusted by the Government.

Stakeholders and Beneficiaries

TNMSC provides procurement, supply chain management and healthcare support services to the following institutions:

Sl. No.	Stakeholder Institutions
1.	Government Medical College Hospitals and allied institutions under the Directorate of Medical Education and Research
2.	District Headquarters Hospitals, Taluk Hospitals and other institutions under the Directorate of Medical and Rural Health Services
3.	Primary Health Centres, Health Sub-Centres and institutions under the Directorate of Public Health and Preventive Medicine
4.	Institutions under the Directorate of Family Welfare
5.	ESI Hospitals and Dispensaries
6.	Veterinary Hospitals and Institutions under the Department of Animal Husbandry
7.	Police Medical Facilities Centre
8.	Local Body Medical Facilities

9.	Prison Hospitals, Medical Facilities in the Rehabilitation Homes and Juvenile Homes
10.	Panchayat Union Dispensaries
11.	Transport Corporation Medical Facilities
12.	Sugar Mill Medical Facilities
13.	Tamil Nadu Electricity Board Medical Facilities
14.	Other Government Departments, Agencies and Institutions entrusted by the Government from time to time

The services of TNMSC ultimately benefit the people of Tamil Nadu through improved access to quality medicines, medical equipment, diagnostics and healthcare services in Government institutions.

Services, Standards and Quality Commitments

TNMSC is committed to ensuring quality, transparency and efficiency in the procurement, storage, distribution and maintenance of healthcare commodities and equipment for Government healthcare institutions.

- Medicines, surgical consumables, sutures, reagents and other healthcare commodities are procured from qualified manufacturers and authorized suppliers in compliance with the provisions of the Drugs and Cosmetics Act, applicable regulatory requirements and prescribed quality standards.
- Medical equipment is procured from eligible manufacturers or authorized suppliers conforming to recognized national and international quality standards such as BIS, USFDA, CE, CDSCO Licenses or equivalent certifications, wherever applicable.
- Supplier selection is carried out through a transparent tendering process based on prescribed technical, financial and regulatory qualification criteria, including manufacturing licences, Good Manufacturing Practices (GMP) certification, quality assurance systems, production capacity, market standing and financial capability.

- All procured medicines are subjected to quality testing through approved laboratories before distribution to Government healthcare institutions.
- Medicines and healthcare commodities are stored and distributed through the TNMSC warehousing network using scientific inventory management practices and digital monitoring systems.
- Adequate inventory levels are maintained in warehouses based on consumption patterns and demand forecasting to ensure uninterrupted availability of essential medicines and healthcare commodities.
- Government healthcare institutions are supplied with medicines and consumables through the Drug Distribution Management System (DDMS) based on approved allocations, periodic indents and emergent requirements.
- Medical equipment procured by TNMSC is supported through warranty, comprehensive maintenance services and monitoring through the Equipment Maintenance Management System (EMMS) to ensure optimum functionality and service availability to promote transparency, accountability and timely service delivery.

Grievance Redressal Mechanism

- Any aggrieved bidder may submit representations to the Managing Director, TNMSC and may prefer appeals before the competent authority in accordance with the provisions of the Tamil Nadu Transparency in Tenders Act and Rules.
- Grievances and feedback from stakeholder institutions and citizens may be submitted through designated communication channels for prompt examination and appropriate redressal.
- Service delivery and operational processes are periodically reviewed through internal audits, statutory audits and other monitoring mechanisms, and corrective actions are taken wherever required.

Expectations from Stakeholders

To facilitate efficient healthcare procurement and supply chain management, TNMSC expects stakeholder institutions to:

- Submit timely and accurate indents, consumption data and other information required for demand forecasting and procurement planning with respect to specific category of drugs and medicines.
- Follow prescribed procedures for inventory management, storage and utilization of medicines, consumables and medical equipment.
- Ensure prompt reporting of stock shortages, adverse quality issues and equipment breakdowns through the designated digital platforms and communication channels.
- Utilize medicines, medical equipment and healthcare commodities judiciously and in accordance with applicable guidelines and clinical requirements.
- Provide regular feedback on service delivery, availability of supplies and equipment performance to support continuous improvement.
- Extend necessary cooperation during inspections, audits, monitoring activities and implementation of digital systems undertaken by TNMSC.
- Promptly communicate emerging requirements and operational challenges to facilitate timely corrective action and uninterrupted healthcare service delivery.

Institutional Commitments

TNMSC has established contingency mechanisms to ensure uninterrupted availability of medicines and medical equipment in Government healthcare institutions.

- In the event of temporary non-availability of any medicine in TNMSC warehouses, a No Objection Certificate (NOC) may be issued to the concerned institution to facilitate local procurement for a limited period, in accordance with applicable guidelines.

- In cases where tenders for procurement of medical equipment receive no response or inadequate response, eligible institutions may be permitted to undertake direct procurement within the prescribed financial limits and procedures, subject to availability of sanctioned funds.
- TNMSC remains committed to continuous improvement in procurement, quality assurance, supply chain management, digital governance and healthcare logistics. The Corporation shall continue to adopt best practices and innovative technologies to ensure efficient utilization of public resources and improved healthcare outcomes for the people of Tamil Nadu.

CHAPTER – 14

TAMIL NADU STATE AIDS CONTROL SOCIETY

Tamil Nadu state AIDS project cell was formed in 1993 and it was registered as a Society on 22.04.1994 under the Societies Act, as Tamil Nadu State AIDS Control Society (TANSACS), the first of its kind in the nation. The Secretary to Government, Health & Family Welfare Department is the President of the Society and an IAS officer is the Member Secretary and Project Director of the Society.

Vision and Mission Statement of the Organization:-

VISION

To Implementation various programmes effectively with the aim of bringing about consistent decline in HIV/AIDS prevalence in the State.

MISSION

The State of Tamil Nadu is a model State in the prevention and control of the HIV/AIDS epidemic in the country. With this objective, the Society has been executing and monitoring a number of programmes including Prevention services by engaging NGOs, Integrated Counselling and Testing Centres, Anti-Retroviral Therapy Centres, establishment and running of Community Support Centres, operation and maintenance of Designated STI/RTI Clinics and Blood Safety & Voluntary blood donation are the key activities of the Society focusing on prevention and control of HIV/AIDS.

Details of Business transacted by the organization

TANSACS is fully funded by the National AIDS Control Organization (NACO) which is a division of the Ministry of Health and Family Welfare of the Union Government of India. The Programs of TANSACS are governed by the guidelines of National AIDS Control Program (NACP), which is in its fifth phase. TANSACS works under the vision released by NACO through National Strategic Plan on HIV/AIDS and STI, 2021-26

towards ending AIDS as a Public health threat by 2030. The program components are effectively implemented under the various divisions of TANSACS, such as:-

- Prevention Services (Targeted Intervention)
- Basic Service Division (BSD) – Services including counselling and screening of HIV infection
- Sexually Transmitted Infection (STI) / Reproductive Tract Infection (RTI) Services (DSRCs)
- Care, Support and Treatment (CST)
- Lab services (LS)
- Information Education and Communication (IEC) and Mainstreaming (MS)
- Strategic Information (SI) (Monitoring & Evaluation-(M&E)
- State Sponsored Schemes
  - Tamil Nadu Trust for Children affected with HIV/AIDS (TNTCAA)
  - Drop-in-Centres for People living with HIV/AIDS (DICs)
- Blood transfusion Services (SBTC)

At the district level, the programs and oversight to the interventions are being implemented by the District AIDS Prevention Control Units (DAPCUs) / District Integrated Strategy for HIV/AIDS (DISHA) among Directorates.

Sl.No.	**Details of TANSACS District Facilities**		**Nos.**
1.	Integrated Counselling and Testing Centres (ICTCs)		3,002
	a.	Screening Facility ICTCs (FICTC) (MCH-37, GHQH-38, Primary Health centre-2393, Private Medical College & Hospitals-188)	2,656

	b.	NACO supported confirmatory facilities - ICTC (MCH-40,GH-206,GHQH-38, Prison-9, ESI-1,Southern Railway-1)	295

4.	Link ART centres		172
5.	Care Support Centre		31
6.	Prevention Services (Targeted Intervention – NGOs/CBOs)		87
7.	Link Workers Scheme (LWS - NGO)		17
8.	(OST) Opioid Substitution Therapy Centre		1
9.	Drop in Centre		34

Details of Citizens or Clients

All the citizens of the country are potential clients. All the people not only across the state but also across the country are provided with prevention to care continuum of services related to HIV /AIDS and STI.

Service provided to each citizen/ client group

TANSACS has successfully reduced the prevalence of HIV/AIDS in the State from 1.13% in 2001-02 to 0.16% in 2022-23 (which is much lower than the National average of 0.23 percentage) among antenatal mothers which is a proxy indicator for general population prevalence and this is possible only because of the tremendous support provided by both State and Central Governments. The services offered by the TANSACS are as follows:-

i) Prevention Services (Targeted Intervention)

The intervention programme is designed to bring about behaviour change among specific population groups whose risk/vulnerabilities of contacting STI and HIV infections are high. These groups are categorized as core groups, which includes Female Sex Workers (FSW), Men who have Sex with Men (MSM), People who injecting drug (PWID), Transgender (TG) and Bridge population which includes Transport workers and Migrants. This programme is implemented through the Non-Governmental Organizations (NGOs) / Community Based Organizations (CBOs). During the financial year 2026-27, 87 NGOs were functioning under the control of TANSACS.

ii) Link Workers Scheme

Link Workers Scheme (LWS) is being implemented through NGOs in 100 Villages each of 17 high priority districts to prevent STI and HIV / AIDS. It also aims at providing prevention-to-care continuum of services to rural based High Risk Groups, other Vulnerable and Bridge populations (Migrants & Transport Workers).

iii) Condom Promotion

As condoms are the most effective means for prevention of HIV and STI infection among high risk and general population, TANSACS provides free condoms to people through Designated STI/RTI Clinics (DSRC clinics), Integrated Counselling and Testing Centres (ICTC), Anti-retro Viral Therapy (ART Centres) and other outreach programmes implemented by NGOs/CBOs through Targeted Intervention and Link Worker Scheme. Behaviour Change Communication (BCC) to create awareness about safer sexual practices.

Basic Service Division -Integrated Counselling and Testing Centres (ICTC) / Nambikai Maiyam

In Tamil Nadu there are 3002 centres that offer HIV counselling and testing services. NACO supporting 295 Confirmatory ICTCs in Government Medical College & Hospitals, District Head Quarters

Hospitals and Government Hospitals etc. Screening ICTCs are supported by National Health Mission (NHM) at block level Primary Health Centres, Community Health Centres and Additional Primary Health Centres. TANSACS initiated 199 Public Private Partnership (PPP) ICTCs in Private Hospitals and Private Medical College Hospitals to strengthen Elimination of Vertical Transmission of HIV, Syphilis & Hepatitis-B (EVTHS) coverage. In order to extend counselling and testing facility services to the remote and inaccessible areas 32 Mobile ICTC Vans are provided by TANSACS across the Tamil Nadu. These Vehicles are operated by respective District AIDS Prevention and Control Units (DAPCUs/DISHA) and also 104 Community Based Screening implemented in NGO's.

Elimination of Vertical Transmission of HIV, Syphilis and Hepatitis-B (EVTHS)

The Government of Tamil Nadu is committed to eliminating HIV, Syphilis & Hepatitis-B among infants born to infected mother through universal screening of all pregnant women for HIV, Syphilis & Hepatitis-B as an essential component of the ANC service package. To achieve this objective, ongoing Elimination of Vertical Transmission of HIV, Syphilis & Hepatitis-B (EVTHS) services are being implemented in close collaboration with Reproductive and Child Health (RCH) programme of the National Health Mission (NHM) and to scale up prevention and care interventions among women of child – bearing age and their families with a package of services which include primary prevention, family planning, voluntary counselling and testing, lifelong Anti–retroviral therapy and counselling on infant feeding practices. All babies born to HIV positive Mothers are given prophylactic Syrup for 6-12 weeks to prevent the baby from HIV infection. These babies are followed up till 18 months of age with periodic screening to diagnose HIV infection. All HIV diagnosed babies are infected on lifelong ART. Syphilis positive & Hepatitis B positive pregnant mothers are also provided treatment & followed up to ensure zero transmission of infection to babies.

District AIDS Prevention and Control Unit (DAPCU) / District Integrated Strategy for HIV/AIDS (DISHA)

In order to implement the programmes of National AIDS Control Organisation completely in the districts, the DISHA single / cluster are re-established and managed by the District Health Officer (DHO), who is the District AIDS Control Officer (DACO) and serving under the supervision of the District Collector. The District Programme Manager / Cluster Programme Manager, District Supervisor/ Clinical Services Officer and District Assistant / Data Monitoring and Documentation Officer function under the DACO/DHO.

Districts are converted into 17 clusters for effective implementation of National AIDS Control Programme - Phase-V activities from 2024-25 onwards. DAPCU is being revamped as DISHA Cluster / Unit (District Integrated Strategy for HIV/AIDS). There are 2,677 personnel working in various categories at District / Facility level as contractual / outsourcing staff. The role of the DAPCU is (1) implementation of NACP strategies (2) Convergence with NRHM activities and (3) Convergence with the other related Government Departments in the District.

Sexually Transmitted Infection (STI) / Reproductive Tract Infection (RTI) Services / Designated STI/RTI Clinics (DSRCs)

The STI/RTI services are rendered through 106 NACO supported DSRCs that are established at Government Medical College Hospitals, Government District Headquarters Hospitals and Government Hospitals in Tamil Nadu. DSRCs are branded as "Suga Vazhvu Maiyam" in Tamil Nadu. Trained Counsellors and Medical Officers provide quality STI services to both General Clients & High Risk Groups (HRGs). Syndromic Case Management is followed at all DSRCs to ensure prompt treatment of all STIs among clients and their partners.

Care, Support and Treatment (CST)

The key objective of Care, Support & Treatment division is to provide lifelong care & treatment to HIV Positive clients. To achieve this objective, currently, various service delivery points like Centre of

excellence, Anti-retroviral therapy centres, Anti-retroviral therapy plus centres, Link ART centres and Link ART plus centres have been established.

ART centres provide lifelong care & treatment to people detected as HIV positive at ICTCs. Each ART centres is headed by Medical Officer under whom Staff Nurse, Counsellor, Data Manager, Lab Technician, Pharmacist & Care Coordinator work. General investigations & CD4 test to assess the immune status viral load test to assess viral count of HIV+ clients are performed at these Centres. Lifelong free Anti Retro Viral (ARV) drugs & Opportunistic Infection (OI) drugs are provided through these centres. Counselling services, referral & linkage to social benefit schemes are also rendered through ART centres.

Currently 86 ART centres are functioning in Tamil Nadu (58 Government + 28 Private ART centres). These centres are located based on the district prevalence, area and terrain & population characteristics. Each ART centre is attached to a Government health facility, Government Medical College, District Head Quarters Hospital & Government Hospital and at certain Private Medical Colleges. Thus, we ensure easy accessibility to speciality care as these centres are mostly established at tertiary & secondary care institutions with all facilities. One Centre of Excellence (at Tambaram) provides both 2nd line & 3rd line drugs in addition to 1st line drugs. One Regional Paediatric Centre of Excellence at Egmore and 7 ART plus centres provide Second line drugs, management of complicated Opportunistic Infections (OIs) and specialized laboratory Services to PLHIV.

NACO has rolled out the "test and treat" strategy based on which all Clients diagnosed HIV positive are eligible for treatment irrespective of immune status. Routine viral load testing has been rolled out by NACO which enable us to assess the response to treatment (ART).

Lab Services (LS)

Laboratory services function at the cross cutting interface of all other divisions like Basic Services (ICTC), Care, Support and Treatment

(ART) and Sexually Transmitted Infection division. The assurance of quality in HIV testing services is ensured through the implementation of External Quality Assessment Scheme (EQAS) by Reference laboratories at both National and State level.

In Tamil Nadu, 3 National Reference Laboratories (NRL) and 12 State Reference Laboratories (SRL) are interlinked with all HIV Testing Facilities (ICTCs) in the districts to monitor the EQAs Programmes. NACO supports all the reference laboratories to get Accreditation by National Accreditation Board for Testing and Calibration Laboratories (NABL). Also 7 Viral load laboratories and 1 Early infant diagnostics Laboratory is functioning.

Information, Education and Communication (IEC)

IEC activities in Tamil Nadu have been formulated, taking into consideration of the diverse cultural, linguistic and social backgrounds of different communities across the State. Awareness creation and information dissemination is always the key objective of IEC, thereby motivating behaviour change among the High Risk Group population. Raising awareness about HIV/AIDS, STI and perceptions about HIV among the youth and adolescent groups and creating a demand for seeking health services and condom promotion.

During the Financial year 2025-2026, Intensified IEC awareness campaign has been launched from 12th August 2025 to 12th October 2025 which had a greater impact among the general public, youth and adolescent groups across the State. As a part of Mass Media Campaign, HIV Prevention and awareness messages were disseminated in TANSACS Social Media Pages, AIR FM Channels, Cinema Theatre of High Prevelant districts, Folk Media Campaign at Village levels, Sensitisation of School and College Students through LSEP and RRC activities. Door to Door awareness at slums and at Key Villages are collective activities conducted across the state during the campaign period.

Mainstreaming: (MS)

Under mainstreaming HIV/AIDS response, front line workers and personnel from various departments, Civil Society Organizations,

Industrial Staff & workers and Corporate sector were sensitized on HIV/AIDS and STI awareness and also on the Prevention and Control Act 2017.

Greater Involvement for the People Living with HIV/AIDS

Tamil Nadu State AIDS Control Society has envisaged building of experience by strengthening the organizations of People Living with HIV at the State and the District level by promoting Greater Involvement for the People Living with HIV/AIDS through sensitizing the implementing agencies (Government, Public, Private Sectors and Civil Society) and created an enabling environment for enhanced involvement of People Living with HIV in the State, are mentioned as follows:-

- People living with HIV/AIDS are working as staff in Integrated Counselling and Testing Centres and Anti-Retro viral Treatment Centres and Drop-in-Centres.
- Establishment of Network for People Living with HIV / AIDS in all the districts.
- Improving skills of People Living with HIV as positive speakers at the district level by providing capacity building training.
- Priority has been given to the PLHIVs for availing Social welfare Schemes at the District level through District Administration.

Red Ribbon Club:

Red Ribbon Club programme in 2,379 Colleges has been working on raising HIV/STI awareness among the youth risk perception, behavioural changes among them through awareness on programmes. This programme covers Arts and Science, Polytechnic, Engineering, Medical, B.Ed Colleges and Teacher Training Institutions.

Life Skill Education Program in schools:

Life Skill Education Programme in schools is being conducted through State Council of Educational Research and Training (SCERT) and covered 9,930 schools.

Strategic Information (Monitoring and Evaluation)

a) Strengthening Overall Care for HIV beneficiaries (SOCH)

SOCH is an integrated web-based reporting, data management & decision support system, with monthly reporting from all the programme components of TANSACS and DAPCUs**.** It is a platform for monitoring the progress of the project through online reporting.

b) HIV Sentinel Surveillance (HSS):

HIV Sentinel Surveillance is being conducted once in two years among pregnant women, HRGs, Prisoners and PLHIVs. HSS among pregnant women and prisoners was conducted during this financial year 2024-2025.

State Sponsored Schemes

There are two beneficiary schemes funded by Government of Tamil Nadu for the welfare of People living with HIV/AIDS, as stated below:

1. Tamil Nadu Trust for Children Affected By AIDS

The Government has established "Tamil Nadu Trust for Children Affected by HIV/AIDS", in the year 2009-10. Government has so far provided Rs.25.00 crore as Corpus Fund and it is deposited in Tamil Nadu Power Finance Corporation Limited. From the accrued interest, financial assistance was given to the HIV/AIDS infected and affected Orphan and Vulnerable Children annually to support their nutritional and educational needs. From the month of June 2025, the Government of Tamil Nadu has sanctioned monthly financial assistance of Rs.1000/- to all infected and affected children by HIV/AIDS.

2. Drop in Centers for People living with HIV/AIDS

The State Government of Tamil Nadu has sanctioned 34 Drop-in-centers in 32 integrated districts (3 in Chennai) and accordingly an amount of Rs.296.82 lakhs has been released as recurring grant through Directorate of Medical Education and Research (DME) to 34 Drop-in-centers during the financial year 2025-2026.

Blood Transfusion Services - 2026-2027

Blood Transfusion Services is an integral part of health care system. It is committed to provide adequate, safe and quality blood and blood components to meet the needs of the general public in the State. All blood units are mandatory tested for TTI (Transfusion, Transmissible Infections) before transfusion. It aims to achieve 100% collection of blood from voluntary non-remunerated donors and also enhance the rational usage of blood and blood components.

Tamil Nadu State Blood Transfusion Council (TNSBTC) supports 101 blood banks which are functioning in Government Medical Colleges / Head Quarters / Hospitals in the State, out of 101 blood banks, 47 blood banks are functioning as Blood Component Separation Units to enhance the rational usage of blood components. In addition to that, 408 Government Blood Storage Centres are there, to enhance the Blood Transfusion Services at Government Primary Health Centres.

Timing of Services

All emergency care services 24X7

Out-patient services

ICTC, DSRC – Counselling and testing Services – 8 AM to 5 PM

(Except on Government Holidays and Sundays)

Antiretroviral treatment Centre – 8 AM to 3 PM

Details of Grievance Redress Mechanism and how to access it

A Toll free number 1800 419 1800 is also available for citizens to report grievances if any.

Expectations from Citizens or Clients

Citizens or clients expect quality health care services in the nearest location and up to their satisfaction. TANSACS has taken every step to ensure all array of services are made available up to block level across the State.

CHAPTER – 15

TAMIL NADU STATE BLINDNESS CONTROL SOCIETY

Introduction: The Tamil Nadu State Blindness Control Society and 38 District Blindness Control Societies is one among the different vertical societies functioning under National Health Mission-Tamil Nadu.

1. Vision and Mission: The vision and mission is to implement the National Programme for Control of Blindness and Visual Impairment effectively in our State through the following measures:

i. To eliminate causes of preventable blindness in the State like Cataract, Diabetic Retinopathy, Glaucoma, Corneal Opacity, Congenital Anomalies, Childhood refractive error, Retinopathy of Pre Maturity etc. and being down the prevalence of blindness to less than 0.25%.

ii. To coordinate with the Directorate of Public Health and Preventive Medicine, Directorate of Medical & Rural Health Services, Directorate of Medical Education, Directorate of Indian Medicine & Homoeopathy to implement the programme effectively across all levels of Health care delivery i.e. Primary, Secondary, Tertiary level.

iii. To make arrangements to provide consumables, infrastructure, Manpower, Training of Ophthalmic Surgeons and Para Medical Ophthalmic Assistant for providing effective eye care services in the Government Institutions.

iv. To co-ordinate with all NGO eye hospitals who are on MOU with various District Blindness Control Societies and monitor their activities and services provided under NPCB programme and also services rendered under Grant-in-Aid (GIA) scheme such as Cataract surgery, eye ball collection and treatment of other eye diseases.

v. To establish the Government & NGO run Eye banks across the State registered under for eye donation and issue HOTA 2014 Corneas issue to Eye Surgeons for Keratoplasty.

vi. To provide free spectacles to school children to correct refractive errors and to old persons for correcting near vision defect.

vii. To monitor eye care innovations in our State like Tele-Ophthal network, vision centers, Mobile ophthalmic units.

viii. Creating IEC materials in regional language for creating awareness among common public about preventable blindness and facilities available in the Government side.

ix. Conducting population based surveys to determine the prevalence of avoidable blindness across our state and to take adequate measures to eliminate them.

2. Details of Business Transacted: The Tamil Nadu State Blindness Control Society and 38 District Blindness Control Societies are involved for effective implementation of the various activities under National Programme for Control of Blindness and Visual Impairment in our State.

i. To Provide Grant-in-Aid for Eye Ball collection through various eye banks who are on Memorandum of Understanding with District Blindness Control Societies at Rs.1,000/- per eye ball collected for screening and grading of cornea, consumables purchase, processing of tissue, transport of eye ball and IEC activities. However, Eye Donation Centres which have signed MoU with Eye Banks will be eligible for Rs. 500/- for every eye ball collected by them and deposited with their MoU eye bank.

ii. To provide spectacle for needy school going children identified with refractive errors at a cost of Rs. 203/- per spectacle. Approximately 3,10,000 children are benefited by this.

iii. To provide near-vision glasses to needy individuals over 45 years of age at Rs. 252/- per spectacle. Approximately 1,52,000 people are benefited by it.

CHAPTER – 16

TAMIL NADU DR. M.G.R. MEDICAL UNIVERSITY

1. Introduction

Tamil Nadu Dr. M.G.R. Medical University was established under the Tamil Nadu Dr. M.G.R. Medical University Act, 1987 and has been functioning since July 1988. The University is one of the largest medical universities in India and regulates medical and allied health science education across Tamil Nadu.

The University is committed in providing quality medical education, promoting research and innovation, strengthening healthcare services and ensuring transparency, accountability and efficient public service delivery.

2. Vision

To emerge as a globally recognized medical university committed to excellence in education, research, healthcare innovation and community service.

3. Mission

- To provide quality and ethical medical education.
- To promote research, innovation and evidence-based healthcare.
- To develop competent healthcare professionals.
- To strengthen public health and community-oriented healthcare services.
- To ensure transparent, efficient and student-friendly administration

4. Objectives of the Citizen Charter

The Citizen Charter aims to:

- Inform students, institutions and the public about the services offered by the University.

- ❖ Ensure transparency and accountability in administration.
- ❖ Define service standards and timelines.
- ❖ Promote efficient grievance redressal.
- ❖ Improve stakeholder satisfaction.

5. Major Services Provided by the University

5.1. Academic Services

- ❖ Affiliation of Medical, Dental, AYUSH and Allied Health Science Institutions.
- ❖ Approval of academic programmes and courses.
- ❖ Conduct of Undergraduate, Postgraduate and Super-speciality programmes.
- ❖ Curriculum development and revision.
- ❖ Conduct of examinations and publication of results.
- ❖ Issue of degree certificates, transcripts and migration certificates.
- ❖ Recognition of Ph.D. guides and research centres.

5.2. Research and Innovation Services

- ❖ Promotion of Theme-Based Research (TBR).
- ❖ Support for multidisciplinary research projects.
- ❖ Research grants and fellowship programmes.
- ❖ Student Short-Term Studentship (STS) programme.
- ❖ Ph.D. Fellowship Programme.
- ❖ Research methodology and biostatistics training.
- ❖ Publication support and Shodhganga thesis uploads.
- ❖ Organization of research conferences, workshops and hackathons.
- ❖ Advanced Life Support (ALS), Basic Life Support (BLS), Good Clinical Practice (GCP), and Good Laboratory Practice (GLP) training programmes

5.3. Public Health and Diagnostic Services

- Siddha OPD services.
- Diagnostic testing facilities.
- HIV National Reference Laboratory services.
- Blood component support services.
- Epidemiological and public health research support.
- Community-based healthcare initiatives.

5.4. Student Support Services

- Student registration and enrollment.
- Academic guidance and counseling.
- Scholarship and fellowship support.
- Examination-related services.
- Digital learning and online certification programmes.
- Research mentoring and statistical guidance.

6. Commitments of the University

The University is committed to:

- Maintaining transparency in academic and administrative functions.
- Delivering timely and efficient services.
- Promoting student welfare and academic excellence.
- Encouraging research and innovation.
- Ensuring fairness in examinations and evaluation.
- Strengthening digital governance and e-services.
- Supporting public health initiatives and community outreach.

7. Responsibilities of Stakeholders

Students

- Follow University rules and regulations.
- Submit applications and documents correctly.
- Maintain academic integrity and discipline.
- Participate in academic and research activities responsibly.

8. Affiliated Institutions

- Maintain standards prescribed by statutory bodies.
- Ensure compliance with University regulations.
- Submit records, applications and reports within timelines.
- Promote quality education and ethical practices.

9. Research and Innovation Highlights (2025–2026)

- 75 research publications in reputed journals.
- 5 patents under filing.
- 282 Ph.D. thesis uploaded to University dedicated web site
- 1,164 research abstracts received during "Research Day 2025".
- Rs.1 crore National Research grant secured.
- Rs.93.19 lakh received under CMRG awards.

10. Infrastructure Development Highlights

- Proposal for establishment of 5 University Research Centres.
- Strengthening of smart classrooms and lecture halls.
- Procurement of computers and printers for Government Medical Colleges.
- Proposal for advanced simulation laboratory.
- Expansion of University guest house facilities.

11. Digital and Future-ready Initiatives

- Digital Health and Telemedicine CME programmes.
- AI in Healthcare workshops.
- Online certification programmes.
- Research methodology and biostatistics training.
- Technology-enabled teaching and learning systems.

12. Grievance Redressal Mechanism

Students, institutions and members of the public may submit grievances related to:

- Examinations
- Certificates
- Affiliation matters
- Academic services
- Administrative services
- Student-related issues

The University shall examine grievances and take appropriate action in accordance with rules and regulations.

13. Transparency and Accountability

The University ensures transparency through:

- Publication of regulations and notifications.
- Online communication systems.
- Digital academic and examination services.
- Structured research and academic review mechanisms.
- Compliance with statutory and Government norms.

14. Conclusion

Tamil Nadu Dr. M.G.R. Medical University remains committed in providing quality medical education, promoting innovation and research, strengthening healthcare delivery and ensuring accountable public service.

Through this Citizen Charter, the University reaffirms its commitment to student welfare, academic excellence, ethical healthcare education and public health development in alignment with the vision of "Health for All".
