Act as a chef and dietician

create healthy 7-day vegetarian recognisably south indian meal plan (for weight loss)

my weight is 85kg Hight 160cm need to reduce 25kg. give me a recognisably south indian vegetarian diet PLAN for 7 days to weight loss. meal should not repite.
cover all 7 days (Breakfast, Lunch, snack and dinner).

fruits , chapathi, nuts , dates

one table, columns : Day / Breakfast/lunch/snack/dinner

Avoid- Unhealthy foods.

one table, columns : Day /meal/dish/portion

Avoid- Unhealthy foods.

At **85 kg and 160 cm**, your BMI is about **33.2** (assuming you're an adult). Losing 25 kg is a substantial goal; aim for steady progress rather than a crash diet. Gradual weight loss is more likely to last. Healthy Weight ... +1

Here's a varied South Indian vegetarian plan. Portions are starting points, since your age, activity level, and health conditions affect your needs. The plan emphasizes vegetables, whole grains and pulses, in line with ICMR-NIN guidance. www.nin.res.in

Day	Meal	Dish	Portion
1	Breakfast	Idli with vegetable sambar	2 medium idlis + 1 cup sambar
1	Lunch	Red rice, keerai paruppu, carrot-beans poriyal and curd	¾ cup cooked rice + ¾ cup paruppu + 1 cup poriyal + ½ cup curd

7	Dinner	Ragi mudde with soppu saaru and dal	1 small mudde + 1 cup saaru + ½ cup dal

Use limited oil; avoid deep-fried foods, sweets, sugary drinks, bakery items, and packaged salty snacks. Dates and nuts are included in small portions because they are energy-dense. If you have diabetes, thyroid or kidney disease, take regular medicines, or have another medical condition, ask your doctor or a registered dietitian to adjust the portions.
